... the chatpata break

Yet another application ...??? Whoa why should I use it?

TAAZA is all about saving time while keeping you updated on the go.
TAAZA gives you ball-by-ball update of cricket score while you stay in tune with the latest happenings around the world.

What's new?

• Powered by the latest 3D engine that gives the application an eye candy look that is totally different from your traditional Mobile Java applications

• Designed with an intuitive idea of AIO (All in One) product.

3D , my mobile ain't ?

• TAAZA gives 3D feel on nearly all the phones.

• Some phones however lack the resources, TAAZA determine those and turn this feature on and off.

Will it Work on my Cell Phone??

TAAZA is compatible with most Java enabled mobile phones and has been tested on dozens of mobile phones as of now.

• Is optimized for Touch sensitive Phones but you don't have to worry about that.

• Determines your Mobile device and gives the same feedback on non Touch devices as well without any compromise in the functionality

What's in the Package? ... Jukebox?

TAAZA's News Jukebox comes with 9 news flavors to choose from. A plethora of categories are packed in the application.

Is it free?
Yeah, TAAZA is free to use, Comes in two versions.

TAAZA-Elite: In this version your updates are ball-by-ball and there is an add-on functionality to turn this feature on and off, has the ability to update the categories and goodies itself.

TAAZA-Lite: Freeware version is fully functional in nearly all the aspects apart from the Score update which has to be updated manually and automatic application update is not possible.
