About Us

"We start at the beginning, cut through the jargon, bust the buzzwords, sort out technologies and provide an understanding of mainstream trends and practical cost-effective solutions... without bogging down on technical details"
– Nex-G Exuberant Nex-G Mantra"

Nex-G Exuberant Solutions backed by world class professionals aims at providing high quality business solutions for small and medium scale industry.

The competitive multinational culture which its consultants and employees brings with their basic knowledge is all about our "**Nex-G Advantage**".

Mobile Technology Academy (MTA)

MTA is specialised in providing individual and corporate trainings in the field of niche areas of mobile communication technologies.

We provide customised corporate trainings in basic technologies , advance mobile communication technologies, as well as system software development.

We also provide customised trainings for products and services.

Training Areas

Basic Trainings

- Telecommunication Basics
- Data communication Basics
- Wireless Basics

Advance Technology Trainings

- GSM
- GPRS
- EDGE
- CDMA
- 3G - UMTS
- 3G - CDMA 2000
- 3.5 G / HSDPA-HUSUPA
- 4G Technologies – WiMAX, UMTS LTE

Training Areas (Contd...)

Advance Technology Trainings (Contd...)

- IMS
- UMA
- WiFi
- WiMAX
- SS7
- VoIP
- SIP
- Bluetooth
- OFDM
- MIMO
- NFC
- UWB
- Zigbee

- PHS
- DECT
- TETRA
- ATM
- IN
- CAMEL
- MPLS
- NMS
- OFDMA
- TELECOM BILLING
- RF Engineering
- DSL / ADSL
- SOFTSWITCH

Training Areas (Contd...)

System Programming

- Basic C Programming
- Advance C Programming
- C++ Programming
- Device Driver Programming
- Linux Kernel Programming
- Unix Shell Scripting

Application Programming

- J2ME
- BREW
- SYMBIAN
- Win CE / Windows Smartphone
- PALM OS

We can also develop and provide training on customers product and services.

Corporate Training - Clients

TATA CONSULTANCY SERVICES

Customers Point Of View

- Our customers can outsource their entire technology trainings, induction trainings, product trainings, service trainings to us on annual contract basis and focus on their key areas.
- We have developed specialized process and training contents in developing high quality resources for challenging projects in mobile communication domain.
- Our trained students are working on projects with companies like Telstra, Anite, Motorola, CCPU, TCS, Tech Mahindra, Sasken, Aricent, CSR, Infosys, IMR, Navini Networks, DigiBee Micro, ZTE, Lucent, Ericsson, Alcatel to name a few.

Key Trainer Profiles

- MTA_CT_01 – Experience of 9 yrs in industry, he has worked on design and development of GSM, GPRS, CDMA, UMTS, DECT, V5.2/V5.1 based products. He is also co-founder of Nex-G Exuberant Solutions Pvt. Ltd. He has also provided corporate trainings to Infosys, Sharp, ORG and Bharti.
- MTA_CT_02 – He is doing PHD and his research area is OFDM and MIMO, which is key technology for 4G. He is also having extensive knowledge in GSM, GPRS, CDMA and UMTS. He is associated to us from 2002 onwards. He has expertise in C, MATLAB, PSSPICE and Assembly Language programming. He has also worked on DSP's. He holds masters in signal processing and bachelors degree in electronics and communications. He is also professional member of ACM.

Key Trainer Profiles

- MTA_CT_03 – He is doing PHD and his research area is OFDM and MIMO, which is key technology for 4G. He is associated to us from 2002 onwards. He holds masters degree and bachelors degree in communications. He has good knowledge in GSM, GPRS, CDMA and UMTS Systems. He has also worked with Antenna Division of Shyam Telecom.
- MTA_CT_04 – He has done bachelors in engineering and associated with us from 2003. He is managing entire individual (Regular and online) trainings. He is having good command over C/C++, OS Concepts, GSM, GPRS, UMTS and CDMA 2000 Technology. He has also guided development of RLC, MAC-D, MAC-hs and RRC projects for UMTS UE.
- We have also tied-up with external trainers from Industry who are having 5-10 yrs experience in various areas of mobile communication technologies.

Summary

- Leading edge Technologies
- Practical oriented training approach
- Customer friendly approach
- Trainers with industry and research background
- Maximizing value proposition
- Long Term Relationships
