

Mobile Technology Academy™

Nex-G Exuberant Solutions Pvt. Ltd.

ISO 9001:2008 Certified Company

“ Why Mobile Technology Academy ?”

- Managed Training Processes
- Flexible Training Procedures
- R&D oriented training Procedures
- World Class Trainers & Infrastructure
- Global Presence (Asia, USA, UAE, Africa)

LEARN

Skills for 21st Century

- Telecom/data-com equipment and software market to grow to US \$ 209.1 billion by 2015.
- Mobile Industry Market Forecast-ed to Exceed \$101 Billion in 2015

Mobile Technology Academy has designed advanced training programs to develop skilled manpower in niche areas of telecom and mobile ecosystem.

**Future is all about innovations
and here we say it "Work Culture"**

Spectrum Of Skills Development Options.

Internship

We have designed special Research & Development (R&D) based internship programs in the area of wireless technologies and mobile applications. These internships are provided at our development center and projects are guided by technical managers with vast telecom product development experience.

Mobile Applications

Project based training programs to cover development and testing of mobile apps for iPhone, Android, BlackBerry, Windows Embedded Compact, SYMBIAN, PhoneGap, Sencha Touch, Titanium, Tizen, BREW, MeeGo, Palm OS, LiMo, Maemo, HTML5 & BADA Platforms.

Wireless & Telecom

Project based trainings to develop skills in development and testing of protocol stacks of next generation wireless products based GSM, GPRS, UMTS, HSDPA, LTE & LTE Advance Technologies. We also provide specialized trainings in Radio Network Planning, Transmission Planning, Telecom Regulations, Wireless Personal Area Networking (ZigBee, NFC, UWB, Bluetooth), Broadcasting (IPTV, Mobile TV, VSAT, Satellite Communication), Enterprise Radio Networks, WiFi, WiMAX, VoIP/SIP, Signaling (SS7/SIGTRAN), Wire-line Technologies (Fiber Optics, GPON, Optical Networking, ADSL) & Telecom Management.

Network Applications

Training programs to cover Network application like Network Management, IN Based Applications, CAMEL, MPLS, Telecom Billing, Mediation, Revenue Assurance, Spectrum Management and Value Added Service (VAS) Applications.

Research & Simulation

Training programs to assist researchers to work on simulation of various problems and solutions using MATLAB, Scilab/Scios, NS2/NS3, LabView and OpenCV

Symon Chiduku ,HARARE ZIMBABWE

My IN & VAS training was very useful. I am highly impressed by the instructor for IN and VAS, he covered the subject quite well. Overall I'm satisfied.

Juan David Trujillo Castilla ,COLOMBIA

My BlackBerry Application development training was very useful. We lack such type of academy in our country although there are many companies who are working on mobile applications. i will definitely recommend this to my friends.

Mohammed Zakaria ,SUDAN

I joined academy for GSM training, and continued to take training on ATM Networks. I am planning to take more courses in future. Training quality and trainers are excellent.

Harish Bahl ,Ministry Of Defense, INDIA

Surely have become much wiser about technology involved in Mobile Communication. I am highly impressed by the instructor for GPRS and UMTS, he covered the subject quite well. Overall I'm satisfied.

“ We look at future, start at the beginning, cut through the jargon, bust the buzzwords, sort out technologies and provide an understanding of mainstream trends and practical cost-effective solutions... without bogging down on technical details. ”

Our Mantra

‘ना’ शब्द सुनाई नहीं देता मुझे!

(I can't hear the word 'NO')
A dialogue from movie 'Guru'
Just make this a habit and you succeed.
